3. The highlights and major accomplishments of the SAC this year include: a. Key Inquiries: The SAC helped to facilitate discussions for the following key inquiries which have been brought to the attention of the school administration for further consideration:

a.

- Baseball field alternative options – MOU being created
- Football field alternative options - completed
- Track renovations
- FPCON Charlie Exercise after action
- Lockdown communication channels
- JROTC Rifle team funding
- Dress Code
- Junior Varsity sports programs
- Baseball field alternative options – MOU being created
- ASVAB testing schedule
- School schedule and quarters alignment with holiday breaks
- Physical education credits
- Parking lot safety/ space
- Additional bleachers
- Tutoring options
- Potential teacher/staff hiring limitations
- IA usage and integration/training
- Student walk-out policies
- Quality of OCONUS DODEA language instruction

b. SAC Training: The SHS SAC was conducted training with the Superintendent for District SAC training in October. Mr. Jimerson facilitated training for SAC members who could not make the training date.

c. Baseball Field Usage: A parent requested that the SAC support a solution to the issues surrounding baseball/softball field usage i.e., base field limitations with restrooms and adequate spacing; presented initially in 2024, and revisited at each SAC meeting this school year. By the end of the school year, it was determined that use of a local off-post field was approved for games. SY 2025-26, the issues resurfaced and are currently being revised with Memorandums of Understanding for usage with Garrison/MWR.

d. Continuation of Kiss and Drop/School Parking Lot Safety Improvements: The SAC facilitated numerous discussions in conjunction with the School Liaison Officer and committee members to support the overall improvement of traffic flow, parking, and drop off/pick up safety. One way traffic implemented, and a Military Police presence was used to enforce traffic flow. One way traffic signs are projected to be painted on the roadways during the summer/low traffic timeframe.

e. Considering budget cuts and government shutdown, students on the Junior varsity Teams were still allowed to play sports with a limited amount of games.

4. Issues or initiatives that were unresolved and recommended for completion during the next school year include:

a. The SAC will need to elect two additional teacher/staff representatives and one student representative at the start of the new school year.

b. Implementation of IA usage by students and teachers, with proper training. Teachers have been given a basic course on AI use and have begun using this in the classrooms. Parents were concerned with it being an issue of integrity. The administration confirmed that proper use of AI does not compromise work, and the school supports the advanced move towards technology.

c. Proposed shifting of winter break due to scheduling constraints for students and families.

d. JROTC funding for students on the rifle team traveling, but not enrolled in the class. The funds were allocated to accommodate students for this school year, but it may be an issue for the class of 2027.

e. Parking lot spaces were occupied with salt for the winter; to free up parking spaces, it was moved in front of the blocked school gate.

5. Issues forwarded to the DAC or military chain of command include:

a. Dress code enforcement

6. Other items to note: Please see attached meeting minutes for further reference.
